

## Milestone 2 Submission - MEDS

### Accounts

	<i><b>Username</b></i>	<i><b>Password</b></i>
<i><b>Customer Account</b></i>	customer	customer
<i><b>Business Account</b></i>	business	business
<i><b>Admin Account</b></i>	admin	admin

### Cool things to note

- We have integrated an API that will find images and other information about the book the user is trying to sell based on the ISBN. Try testing out a valid isbn like 1593279922
- We are fully deployed on to AWS
- Routes that would require the user to be logged in are fully authenticated using JWT

### Maxwell Reid - s3787033

#### Tasks completed

- Backend implementation of microservices
- CICD deployment
- Scrum documentation review
- Jira board maintenance
- Unit testing of microservices
- DockerHub configuration

Percentage completed: 25%

### Ewan Breakey - s3845382

#### Tasks completed

- Remaining frontend page construction
- Frontend layout, styling & theming
- Frontend service plumbing
- AWS EC2 deployment
- Docker-compose configuration
- Jira board maintenance

Percentage completed: 25%
